# INDEX.

Abdomen, punctured wound of the, with protrusion of a large amount of small intestine, followed by traumatic delirium and erysipelas, recovery, 901
Abdominal belts, 667, 740
—— tumours, Mr. S. Wells on, 918, 938
—— viscera, rupture of, from falls, 717
—— wall, congenital absence of the anterior, with displacement of the viscera, 737
Aberdeen, Royal Infirmary of, 72; Hospital Sunday in, 102; Mutual Assurance and Friendly Society of, 111; and the Public Health Act, 324
Aberystwith, diphtheria in, 730, 777, 806, 885
Academy of Sciences, the, 508
Acetonæmia, the doctrine of, 689
Acne rosacea, treatment of, 83, 854, 887, 925
Aconite and belladonna, poisoning by, 509
Adams, Dr. J., presentation to, 747
——, Mr. J., hydrophobia, 149
——, Mr. W., shoe for talipes, 517
Addison's disease, 47
Adelaide Hospital, Dublin, 183
Advertising doctors, 137
Agnew, Dr. J. W., colonial medical degrees, 146; the forceps in certain breech presentations, 518
Air-bladder, death from swallowing a, 398
Akerman, Mr. W., the emigration service, 813
Albion Life Assurance Company, 406
Albuminuria in health, 503
Alcohol, on abstinence from, in health and disease, 660
Alcoholic drinks, 950; as diet, as medicine, and as poison, 695
Alcoholism, therapeutic, 186
Alderson, Mr. F. H., is umbilication of the vesicle a diagnostic sign of small-pox? 223
Alexander, Dr. W., the mortality of lying-in hospitals, 145
——, Mr. R. G., Dr. Southey's trocar and cannulæ, 295
Allbutt, Dr. T. C., on the treatment of phthisis at Davos am Platz, 824
Allison, Dr. A., medical reform, 506
Althaus, Dr. J., chorea in the adult male associated with epilepsy, 88
Ambulances, flying, 877
American Medical Bill, a new, 509
—— Neurological Association, Transactions of the (review), 836
Amnesia, case of, with post-mortem examination, 312
Amputation in lower third of forearm in advanced pulmonary phthisis, good recovery from the operation, and improvement of pulmonary symptoms, 273
Anæmia, progressive pernicious (or idiopathic), retinal hæmorrhages and double optic neuritis, microcythæmia, epistaxis, death, necropsy, 13; on a case of, observed with the hæmacytometer, 675
Anæsthetics, the action of, 911
Analysts, public, 63; the Society of, 251, 258
ANALYTICAL RECORDS.—Sanitas, 17—Vaseline, ib. — The "A 1" cod-liver oil, ib. — Probyn's dialysed iron syrup, ib.—Nigrine, a jet-black marking fluid, ib. — Umney's fluid extract of cinchona, ib.—Aperient fruit lozenges, 500—Phosphorus capsules, ib. — Granular effervescing arsenic, ib. — Bragg's malt biscuits and meat biscuits, ib.
Anatomy, the uses of, 405
Anderson, Dr. McC., Lectures on Clinical Medicine (review), 315
Aneurism, clinical account of two cases of, treated successfully by Syme's operation, 602; popliteal, rapidly cured by flexion and digital compression, 48; cured by the application of an interrupted elastic bandage and subsequent digital compression, 85; treated by Esmarch's bandage, 86; ligature of the femoral in a case of, 122; ligature of the femoral in a case of, after failure of Reid's method, 414; two cases of, in which the femoral artery was successfully tied, after failure of gradual compression in one, and of compression with elastic bandages in the other, 681; — of the anterior tibial, cure by Esmarch's bandage, 235; — aortic, two cases of, with the results of treatment by iodide of potassium, low diet, and absolute rest, 274; distal ligature for, 275; cause of the accentuation of the second sound in the aortic area in, 296, 704; rupture of, into the pericardium, 333; two cases of, 384; — of the ulnar artery, ligature of the brachial, recovery, 347; — of the subclavian and axillary artery, 388;—of the arteria innominata, distal ligature of the carotid and subclavian arteries for, 823, 831, 844
Aneurisms, cerebral, 128
Anglesey, unqualified midwifery at, 436
Antiperiodics, 37, 222
Antiseptic operations in 1877, some statistics of, 306
—— surgery, 36; in large hospitals, 851
Anti-vaccination, 592
Anti-vivisection, 405
Anus, imperforate, 122
Aorta, case of malposition of the, due to rickets, simulating aneurism, 346
Aortic valve, rupture of the, 201
Aortitis, note on a case of, with post-mortem examination, 642
Aphasia, 878; almost perfect recovery after five months, 454; non-protrusion of the tongue in some cases of, 716
Apothecaries' Hall, of London, pass-lists of, 32, 71, 109, 147, 183, 220, 257, 295, 331, 368, 404, 441, 477, 515, 551, 592, 627, 700, 735, 774, 812, 852, 922, 951; v. Shepperley, 443; as an examining body, 887, 954
Appeals, 398, 408
Appleyard, Mr. J., voting in convocation, 299
Arctic exploration, 880
Army, the, estimates for, 319; health of, 328
—— clothing depôt, report on the contamination of the uniforms of, 217, 246
—— medical regulations, 92, 324
—— medical service, the, 283, 320, 356, 359, 370, 463, 477, 504, 593, 649, 703, 738, 767, 772, 814, 854; pass-lists of, 320, 331; reform of, 579; dead-lock in, 582
Arsenic, prevention of poisoning by, 290; granular effervescing, 500; in the treatment of bromide rash, 806
Arteries, on the antiseptic ligature of, 343
Ascites, case of, tapped forty-two times, 223
Ashe, Dr. I., medical reform, 335
Asphalte paving, 880
Association of Municipal Corporations and Contagious Diseases, 294
—— of Surgeons practising Dental Surgery, 148
Asthma, treatment of, 544
Astragalus, dislocation of the, and fracture of the neck of the bone, 311
Asylum superintendents and the new County Court Bill, 519
Asylums and county boards, 502
Atkins, Mr. T. D., treatment of cholera, 445
Atkinson, Mr. E., enormous enchondroma of the humerus, amputation at the shoulder-joint, death from septicæmia on the twenty-fifth day after operation, 640
——, Mr. G., obituary notice of, 811
——, Mr. R., eye cases illustrative of medical ophthalmology, 745, 783
Atkinson's Natural Philosophy (review), 466
Atrophy, unilateral, with muscular spasm, 387,
Atropia, 370, 518; two cases of accidental poisoning by a solution of, recovery, 165
Atropine, opium-poisoning treated by, 354
Attfield, Dr. J., the Year-book of Pharmacy, 738
Atthill, Dr. L., abstract of sixteen cases of post-partum hæmorrhage treated by the injection of hot water into the uterus, 196
Atwood, Mr. W. A., obituary notice of, 735
Aural and nasal polypi, snare for, 426
Auricle, aneurism of the, 277

Bacillus anthracis, 202
Bain, Mr. W. P., methods of restoring the apparently drowned, 666, 810
Baker, Mr. A., the council election at the College of Surgeons, 699, 771
Balfour, Professor, the testimonial to, 586
Bank holidays, 872
Bantock, Dr. G. G., on the use and abuse of pessaries, 120, 162
Barber fund, the, 482, 518, 556
Barnes, Dr. R., lecture introductory to a course of clinical study of diseases of women, 741
Bartleet, Mr. T. H., on a modification in graduated staffs, 921
Barwell, Mr. R., some statistics of antiseptic operations in the year 1877, 306
Baths and bathing, 65, 474
Bathing casualties, 947
Baylis, Mr. A. W., hydrophobia, 222
Beach, Mr. F., schools for imbecile children, 259
Beaney, Mr. J. G., Diseases of the Hip-joint (review), 499; History and Progress of Surgery (review), 687
Bearing-reins, 180, 808
Bed-frame for preventing movement of the body during the employment of weight-extension to the lower extremity, 272
Bed-rest, cottage hospital, 426
Beef-tea, 854, 887, 924
Beer, adulteration of, 114
Bell, Mr. A. J., a case of mixed poisoning: opium, belladonna, chloroform, camphor, and methylic alcohol, 639
——, Mr. C. E., puerperal fever and scarlatina, 775
Bellamy, Mr. E., fracture of the humerus by direct muscular action (throwing a cricket-ball); no displacement, 699
Belvidere Hospital, Glasgow, 101
Bengal, 31; Medical Regulations (review), 316
Bennett, Mr. C., ergot in midwifery practice, 73
Bentley, Mr. A. J. M., on the cure of elephantiasis arabum, with special relation to the pathology of Lewis, 784
Bequest, a wise, 555
Bequests, &c., to medical charities, 17, 109, 147, 155, 192, 296, 332, 368, 404, 478, 516, 552, 589, 592, 627, 736, 794, 884, 951
Berkeley, Mr. G. F., hydrophobia and madness in dogs, 73
Bernard, M. Claude, 249; obituary notice of, 256
Berry bequest, the, 183
Bichloride of mercury, 482
Bigelow, Dr. H. J., on dislocation of the hip, 860, 894, 930
Bigg, Mr. G. K. S., Sayre's method of treating angular curvature, 113
Bile, blue, 249
Bile-duct, common, congenital obstruction of the, 203
Biliary calculi, discharge of, by ulceration through the abdominal parietes, 20; escape of, through the abdominal walls, 113; and their pathological relations, 655
—— calculus, discharge of a large, by ulceration through the abdominal parietes, 851
Bills before Parliament, 140
Binz, Dr. C., the Elements of Therapeutics (review), 170
Biologie, Zeitschrift für (review), 355, 906
BIRKENHEAD.—The Borough Hospital, 182—Typhus fever, 183—Small-pox and vaccination, 295
Birkenhead, provision for infectious diseases at, 221; the lying-in hospital at, 399
BIRMINGHAM.—Dr. Hill's quarterly report, 330—The provident dispensary scheme, ib.—The General Hospital, ib.—Hospital Sunday, 514—The Queen's Hospital, ib.
Birmingham, provident dispensaries in, 139, 215, 251; the board of guardians of, 807, 923; the Medical Benevolent Society of, 847, 853; Medical Review (review), 205
Birth, a remarkable, 224
Bismarck, Prince, and the tobacco-tax, 64
Black, Dr. W. T., treatment of meningitis, 621
Blackrock Convalescent Hospital, 852
Bladder, phosphatic deposits formed in the, 44; the pathological history of deposits in the, 82; means of preventing the formation of deposits in the, 159; distended, and simulated rectal stricture from the irritation of a contracted meatus, 164; note on the local treatment of some affections of the, with description of a pessary catheter, 197; the local use of solution of quinine in chronic irritation of the, 270; unusual distension of the, 935
Blanc, Dr. H., remarkable case of elephantiasis arabum, 271

Bleeding from divided vessels, observations, macroscopical and microscopical, on the mechanism of the spontaneous arrestment of, 341, 376
Blind and deaf-mute children, 177
—— paupers, 101
Blood, globular richness of the, 656
Blood-corpuscles, red, proportion of in skin diseases, 125
Blood-spirillum of Bombay, the, 699
Bloodvessels, the union of divided, 731
Blundell, Dr. J., obituary notice of, 255
Boarding-schools for ladies, 554
Boardship, ventilation on, 406, 443
Bock's Atlas of Human Anatomy (review), 131
Boileau, Dr. J. P., the temperature of the human body, 413
Bolton, registration of infectious diseases in, 22
Bone, an interesting pathological observation on the life of, 895
Bonesetters, 925
Books used by the sick, 61
Boon, Mr. A. P., the treatment of tetanus, 230
Boots, high-heel, 382
Boracic acid, antiseptic and therapeutic properties of, 879
Bose, Dr. B., a New System of Medicine, entitled Recognizant Medicine (review), 55
Boston Spa, 807
Botany, the progress of, 509
Bourton-on-the-Water village hospital, 405

Bradford Medico-Chirurgical Society, 63, 220, 423, 606, 723, 904
Bradley, Mr. S. M., the College of Surgeons elections, 625
Brady, Mr. P. O., hydrophobia, 702
Bragg's malt biscuits, 560
Brain, on the physiological pathology of the, 153, 225; the functions of the frontal lobes of the, as illustrated by a case of injury, 344, 378; the, in congenital absence of one hand, 757; in atrophy of the arm, 847
"Brain": a Journal of Neurology (review), 869
Brain-feeding, 728
Bramwell, Dr. B., case of cerebro-spinal meningitis, and a case of tuberculo-meningitis, occurring in the same family at the same time, and simulating epidemic cerebro-spinal meningitis, 9; malpositon of the aorta, due to rickets, simulating aneurism, 346
Bravo case, a local, 543
Bread and cheese, dangers of, 506, 595
Breast, female, a series of cases of tumours of the, 233, 239; colloid cancer of the, 789; male, scirrhus of the, 754
Breath, temperature of the, 695
Breech presentations, fracture of the femur in, 223
Brighton, new census for, 25, 70
Bristol Medico-Chirurgical Society, 169, 240, 423, 723, 792
British Medical Association, and women members, 174, 181, 215, 243, 254, 367, 508, 513, 555; the solidarity of the, 587
—— Medical Benevolent Fund, 214, 250
—— sailors in foreign hospitals, 473
Briton Life Association, 616
Broadbent, Dr. W. H., case of amnesia, with post-mortem examination, 312
Bromide of potassium, eruption from, 52, 151; treated with arsenic, 866
Bronchi, on the occurrence of collapse, emphysema, and destructive pneumonia in association with tumours compressing the, 415, 486, 563
Bronchiectasis, on, 189
Bronchitis kettles, 536
Brown, Dr. J., presentation to, 332
——, Mr. G., puerperal pyrexia, 372; the Medical Defence Association and the Medical Bill, 739
——, Mr. H., the British Medical Association and the women question, 555
——, Mr. W., the telephone and phonograph in practical medicine, 371
Browne, Mr. L., extirpation of the larynx, 150
Brown-Séquard, Dr. C. E., 808; feeding per rectum in nervous affections, 144; on the physiological pathology of the brain, 153, 225
Bryant, Mr. T., on the surgical treatment of intestinal obstruction, with two cases of enterotomy, 674, 711, 743, 782
Bucknill, Dr. J. C., on insanity in its legal relations, 521, 558, 598, 634, 671
Bunion, plantar, 570
Burke, Mr. U. J., the Aryan Origin of the Gaelic Race and Language (review), 130
Burn, old cicatricial web from, treated by free dissection and revision, &c., 124
Burrows, Sir J. C., statue of the late, 295
Buzzard, Dr. T., a physiological hint to photographers, 505; a case of hydrophobia, 929

Cacotrophia folliculorum, 684
Cæsarean section, 251, 488, 526, 790; in a dwarf, successful, 826
Calcutta, mortality in, 363; cholera in, 805
Californian wines, 408
Cambridge, mathematical tripos, 184; the study of natural science and medicine at, 254, 798
Cameron, Dr. H. C., on the antiseptic ligature of arteries, 343
——, Dr. J. A., presentation to, 812
——, Mr. A., an Invalid's Pastime (review), 836
Campbell, Dr. A. R. C., the assault on, 33
Canal boats, 541, 805; Act, 65
Cancer, treatment of, by pressure, 618; intra-thoracic, on, 707
—— Hospital, the, 459
Cape of Good Hope, dysentery and typhoid at the, 569
Carbolic acid, the medical uses of, 927
Cardiac thrombosis after abortion, 933
Carey, Dr. F. E., medical law in Guernsey, 518
Carlisle, the water-supply of, 732, 815
Carmichael prizes, the, 516
Carnarvon, Lord, at King's College, 763
Carpenter, Dr. A., on alcohol, 729
——, Dr. R. H. S., the Government Medical Bill, 477
Carter, Dr. H. V., notes on the blood-spirillum of Bombay, 699, 829
——, Mr. R. B., on Defects of Vision (review), 280
Cats, 62
Cattle, home slaughter of, 804
Caucasus, typhus in the, 546; and Armenia, sanitary work in, 768
Caustic-holder swallowed, a, 508
Cavafy, Dr. J., leukæmia, 662
Cerebellum, case of abscess of the, bursting into the ear, with immediate death, 712
Cerebro-spinal fever in Dundee, 219, 299; fatal, by rupture of the spleen, case of, 821

LECTURES, ETC.

BARNES, Dr. R.:
Lecture introductory to a Course of Clinical Study of Diseases of Women. Delivered at St. George's Hospital, 741
BROWN-SÉQUARD, Dr. C. E.:
Lectures on the Physiological Pathology of the Brain. Delivered at the Royal College of Physicians of London, July, 1876.
Lecture II., Part II.—On Glossoplegia as an effect of Disease of the Brain, 153, 225
BUCKNILL, Dr. J. C.:
Lumleian Lectures on Insanity in its Legal Relations. Delivered at the Royal College of Physicians.
Lecture I., 521
Lecture II., 558, 598
Lecture III., 634, 671
CHARCOT, Professor:
Lecture on Metalloscopy and Metallo-Therapy applied to the Treatment of Grave Hysteria. Delivered at La Salpétrière, Paris, Dec. 30th, 1877, 81, 158, 302
CROPT, Mr. J.:
Clinical Lecture (Abstract of a) on Plaster-of-Paris Splints for Fractures of the Leg. Delivered at St. Thomas's Hospital, 819
EADE, Dr. P.:
Clinical Lecture on the Medical Uses of Carbolic Acid. Delivered at the Norfolk and Norwich Hospital, 927
ERICHSEN, Mr. J. E.:
Lectures on Injuries of the Head. Delivered at University College Hospital.
Lecture I., 1
Lecture II., 115
GREENHOW, Dr. E. H.:
Clinical Lectures on Bronchiectasis.
Lecture II., 189
HARRISON, Mr. R.:
Clinical Lecture on a Case of Urethral Fever. Delivered at the Liverpool Royal Infirmary, 374
JOHNSON, Dr. G.:
Clinical Lecture on Cases of Intra-thoracic Cancer, 707
JONES, Dr. C. H.:
Clinical Lecture on Cases of Failure of the Heart, 266, 301
LISTER, Mr. J.:
Clinical Lecture on a Case of Excision of the Knee-joint, and on Horsehair as a Drain for Wounds; with Remarks on the Teaching of Clinical Surgery. Delivered at King's College Hospital, 5
MACEWEN, Dr. W.:
Clinical Lecture on Antiseptic Osteotomy. Delivered at the Royal Infirmary, Glasgow, 449
MACNAMARA, Mr. C.:
Clinical Lecture on Osteo-Sarcoma, 669
MASON, Mr. F.:
Lettsomian Lectures on the Surgery of the Face. Delivered at the Medical Society of London, in January, 1878.
Lecture I., 39, 77
Lecture II., 263, 337
Lecture III., 742, 780, 890
MOXON, Dr. W.:
Clinical Lecture on the Relievable Aspects of Heart Disease. Delivered at Guy's Hospital, 43, 80
PAVY, Dr. F. W.:
Croonian Lectures on Points connected with Diabetes. Delivered at the Royal College of Physicians.
Lecture I., 447, 486
Lecture II., 527, 597, 633, 705
POWELL, Dr. R. D.:
Clinical Lectures on Excavation of the Lung in Phthisis. Delivered at the Brompton Hospital for Consumption.
Lecture VI., 156
SAWYER, Dr. J.:
Clinical Lecture on the Causes and Cure of Insomnia. Delivered in the Queen's Hospital, Birmingham, 857, 889
STURGES, Dr. O.:
Clinical Lecture on the Diagnosis of Lung Inflammations. Delivered at Westminster Hospital, 339, 373
YEO, Dr. I. B.:
Clinical Lectures on Cases of Intra-thoracic Pressure. Delivered at King's College Hospital.
Lecture II., 409, 779, 817

Lee, Mr. H., note on the use of the calomel vapour bath, 193
Lee, scarlet fever in, 480
Leeds, the sanitary state of, 24; vaccination in, 290; and West Riding Medico-Chirurgical Society, 792
Leek, small-pox at, 402
Lees, Miss F., drawing-room lectures to ladies on nursing, 734
Leg, crushed, amputation, pyæmia, high temperature, lowered by iced-water bed, suppurating eyeballs, death, 900
Leicester, infant mortality in, 618; Provident Dispensary, 288
Leprosy in Mitylene, 942
Lescher, Messrs., "poison in the nursery," 667
Leucocythæmia, the history of, 550
Leukæmia, 490, 495, 607, 613, 662
Liberality, exhausting, 140
Libraries, free, in the metropolis, 545
Life and death, 696
Light, artificial, in relation to the comfort and well-being of the eyes, 394; and life, 427
Lima, Dr. J. F. da S., the late Dr. Wucherer and the filaria Bancrofti, 440
Limbs, unequal length of, 506, 553
Limerick Union Hospital, 737
Linde, Dr. T., cause of accentuation of second sound in aortic aneurism, 293, 629
Lindsay, Dr. J. M., asylums and the County Government Bill, 554
———, Dr. L., the artificial production of human diseases in the lower animals, 380, 417, 454, 490, 564, 680
Ling, Mr. M. E., rapid dilatation of the female urethra, 925
Lip, cancer of the, 720
Lipomata, symmetrical, 99
Lister, Mr. J., on a case of excision of the knee-joint, and on horsehair as a drain for wounds, with remarks on the teaching of clinical surgery, 5; on the drainage of wounds, 113
Lithotomy, cases of, 235; the relapse of stone in the bladder after, 713; combined with lithotrity, 949
Liveing, Dr. R., on the treatment of acne, 83; clinical remarks on a case of herpes gestationis, 783
Liver, the, 555; abscess of the, 405; an enormous cyst in connexion with the, frequent aspirations, recovery, 519; abscess of the, sequential to dysentery, aspiration, death, necropsy, 643; hypertrophy of the, 651; hydatid of the, sudden death after tapping of, 833; kidney, and spleen, idiopathic amyloid disease of, 531; abscess of, opened with antiseptic precautions, cure, 931
LIVERPOOL.—Death from chloroform, 254—Royal Southern Hospital, ib.—Royal Infirmary, 367
Liverpool, health of, 912; Medical Institution of, 109
Lloyd, Dr. J. F., atropia, 370
Local Government Board, report of the medical officer of the, 319
London, water-supply of 249, 325, 398; and Paris, mortality of, 61
——— Hospital, the, 208, 292
——— University, the, 56; a reform association of, 21; the new supplemental charter, 60, 93, 103; the admission of women to, 135, 144, 211, 286; convocation, 209, 601, 727
Longmore, Mr. T., Gunshot Injuries: their History, Characteristic Features, Complications, and General Treatment (review), 15
Lord Chancellor, the, and homœopathy, 62
Lower limbs, unequal length of, 631
Lunacy law, report of committee on, 503
Lung, immigration of corpuscles in the, 133; gangrene of the, in a case of lead-poisoning, 198; inflammations of the, on the diagnosis of, 339, 373; diaphragm, and liver, laceration of, by fractured ribs, 682
Lupus, treatment of, 88; hypertrophic, 350; exedens, 721
Lusk, Dr. W. T., on the Nature, Origin, and Prevention of Puerperal Fever (review), 315
Lyceum, death at the, 305
Lying-in hospitals, 95; the mortality of, 145, 295
——— Society, a working woman's, 223
Lymphadenoma and leukæmia, 490, 495, 607, 613, 662
Lymphatic vessels and glands, cancer of the, 606
Lymph-scrotum, 350
Lyon, Mr. I. B., Food Tables (review), 466

Macaulay, Lord, the Life and Letters of (review), 391
M'Calman, Dr. R. G., hydropathy in flooding, 259
M'Carthy, Colour-sergeant, the case of, 214, 470
Macclesfield, infant mortality in, 543
M'Connell, Dr. J. P. P., the distoma sinense, 406; distoma conjunctum, 478
Macdonald, Dr. J., a case of talipes equino-varus cured through an accident, with remarks and suggestions, 568
Macdonnell, Dr. H. H., mixed narcosis, 75
M'Dougall, Mr. F., unqualified assistants and public vaccinators, 924
Macewen, Dr. W., on antiseptic osteotomy, 449; an interesting pathological observation on the life of bone, 895
M'Intyre, Dr. J., treatment of incontinence of urine, 665
M'Kendrick, Dr. J. G., Outlines of Physiology in its relation to Man (review), 835

Mackenzie, Mr. R., army medical management, 370
Maclagan, Dr. T. J., cerebro-spinal fever, 219; case of cerebro-spinal fever, fatal by rupture of the spleen, 821
Macnab, Dr. R., a case of diaphragmatic hernia of the entire stomach three years after the cure of empyema, 11; the sickness of pregnancy, 594
Macnamara, Mr. C., History of Asiatic Cholera (review), 180; on osteo-sarcoma, 669; lithotrity combined with lithotomy, 949
Madras University, the, 656
Magazine of Art (review), 836
Major, Dr. H. C., freezing tissues for section-cutting by means of ether spray, 662
Malaria, action of, on the human organism, 421
Male and female mortality in England, 541
Malta, the military prison at, 444

Miller, Dr. H., case of temporary kleptomania, 865
Millstone-maker's lung, 788
Mind-tension, the dead-point in, 843
Miners' nystagmus, cases of, 644

## MIRROR OF HOSPITAL PRACTICE, BRITISH AND FOREIGN.

ABERDEEN ROYAL INFIRMARY.—Case of psoas abscess; antiseptic treatment; recovery, 199
BICETRE, HOPITAL DE.—Fracture of the sternum; compound fracture of the right leg; fracture of the vertebral column; death, 200
BIRMINGHAM GENERAL HOSPITAL.—Dislocation of the wrist, death, 937
BIRMINGHAM, QUEEN'S HOSPITAL. — Extreme genu valgum in both lower limbs; subcutaneous division of the internal condyle of both femora; complete removal of the deformity, 645—Case of atresia of the hymen; hæmatometra, 829—Incontinence of urine, ib.
CARDIFF UNION HOSPITAL.—Intestinal obstruction, 199—Subglenoid dislocation of the left humerus of six days' duration, ib.
CENTRAL LONDON SICK ASYLUM.—Unusual distension of the bladder simulating ovarian tumour, 935
CHARING-CROSS HOSPITAL.—Popliteal aneurism; ligature of the femoral artery, 123—Dislocation of the astragalus, and fracture of the neck of the bone, 311—Idiopathic amyloid disease of the liver, kidney, and spleen; relief; remarks, 531—Cystic sarcoma in popliteal space; removal, 567
CHATHAM, ST. BARTHOLOMEW'S HOSPITAL.—Two cases of traumatic tetanus treated by stretching of the median nerve; death in both instances, 311—Laceration of the lung, diaphragm, and liver, by fractured ribs, 682.
CORK HOSPITAL FOR DISEASES OF WOMEN AND CHILDREN.—Surgical cases, 124
DORSET COUNTY HOSPITAL.—Strangulated femoral hernia; operation; recovery, 787
EDINBURGH ROYAL INFIRMARY.—Depressed fracture of frontal bone, 14—Case of excision of the mamma, in which a new method of drainage was employed, 125—Ovariotomy; recovery, 312
EVELINA HOSPITAL.—Purpura with subretinal hæmorrhage, 123—Empyema; aspiration on two occasions; recovery, 823
GREAT NORTHERN HOSPITAL.—Hip-joint disease; resection; secondary amputation at the hip-joint, 787
GUERNSEY, ST. PETER'S PORT HOSPITAL. — Collection of pus between the skull and dura mater; trephining; death on seventh day, 420

GULGONG PUBLIC HOSPITAL.—Two cases of aneurism of the aorta, 384
GUY'S HOSPITAL.—Cases of injury to the thoracic and abdominal viscera, 493—Two cases of epithelioma of the tongue, and one of epithelioma of the floor of the mouth; operations; relief, 827—Crushed leg; amputation; pyæmia; high temperature, lowered by iced-water bed; suppurating eyeballs; death, 900
HOBART TOWN GENERAL HOSPITAL.—Intussusception of the bowels of nine days' duration; death, 568
HOSPITAL FOR SICK CHILDREN.—Gangrene of the lung, following tracheotomy for diphtheria, 754
KING'S COLLEGE HOSPITAL.—Ununited fracture of the humerus in an old man, successfully treated by resection of the ends of the bone and the application of silver sutures, 48—Notes on a case of strumous or tuberculous testicle; castration; use of clamp and cautery, 274
LEEDS GENERAL INFIRMARY.—Case of pneumonia; enlargement of gall-bladder; paracentesis; recovery, 383—Abscess of liver, 495
LIVERPOOL NORTHERN HOSPITAL.—Cases of popliteal aneurism treated by Esmarch's bandage, 86—Fracture of the skull, with discharge from the ear, 348—Acute retroversion of the uterus, ib.—Cases of rupture of abdominal viscera from falls, 717
LIVERPOOL ROYAL INFIRMARY.—Malignant disease of bladder and rectum; colotomy, 645
LONDON HOSPITAL.—Progressive pernicious (or idiopathic) anæmia; retinal hæmorrhages and double optic neuritis; microcythæmia; ataxia; death; necropsy, 13—Irreducible hernia rendered reducible by rest and diet, 383—Abscess of the liver, sequential to dysentery; aspiration; death; necropsy, 643—Remarks on non-protrusion of the tongue in some cases of aphasia, 716—Mr. Maunder's clinic, 935
LOUGHBOROUGH INFIRMARY.—Stricture of the rectum divided by the knife, 788
MANCHESTER ROYAL INFIRMARY.—Cases of ovariotomy, 49—Scalp wound; tetanus; free administration of hydrate of chloral and bromide of potassium; recovery, 419—Notes of a case of intestinal obstruction treated by abdominal section, 493—Cases of fibroid tumour of the uterus, 683
MIDDLESEX HOSPITAL.—Three cases of strangulated inguinal hernia; operation in each case without opening the sac; recovery, 12—Fracture of the pelvis from a fall whilst cleaning windows; head of the femur driven through the acetabulum, but no fracture of femur; death; post-mortem appearances, 382—Uterine hæmatocele, 457
NATIONAL HOSPITAL FOR THE PARALYSED AND EPILEPTIC.—Cases illustrating the treatment of bromide rash with arsenic, 866
NEWCASTLE-ON-TYNE INFIRMARY.—Two cases of renal tumour, 166—Two cases of syphilitic paraplegia, 428—Two cases of syphilitic hemiplegia, 967
NEWPORT (MON.) INFIRMARY.—Punctured wound of the abdomen, with protrusion of a large amount of small intestine, followed by traumatic delirium and erysipelas; recovery, 901
NORTH STAFFORDSHIRE INFIRMARY.—Strangulated hernia relieved by operation; recurrence of vomiting, 717
NOTTINGHAM GENERAL HOSPITAL.—Two cases of aortic aneurism, with the results of treatment by iodide of potassium, low diet, and absolute rest; remarks, 274—Two cases of typhoid fever, with hyperpyrexia, treated with salicylate of soda, 567
NOTTINGHAM AND MIDLAND EYE INFIRMARY.—Case of miners' nystagmus, 644
PENDLEBURY, CHILDREN'S HOSPITAL.—Double congenital inguinal hernia; strangulation; herniotomy; ligature of the neck of the sac; recovery, 166
PETERBOROUGH INFIRMARY.—Strangulated hernia, 755
PORT ELIZABETH PROVINCIAL HOSPITAL.—Cases of lithotomy, 235
RADCLIFFE INFIRMARY.—Case illustrating the modification of syphilis by hereditary transmission, 936
ST. BARTHOLOMEW'S HOSPITAL.—Cases of amputation in lower third of forearm in advanced pulmonary phthisis; good recovery from the operation and improvement of pulmonary symptoms, 274
ST. LOUIS HÔPITAL.—Vesico-vaginal fistula; communication of the urethra with the vaginal opening; operation; recovery, 533
ST. MARY'S HOSPITAL.—Injury of the head; probable fracture of the base of the skull, followed by deafness; recovery, 457—Two cases of popliteal aneurism, in which the femoral artery was successfully tied, after failure of gradual compression in one, and of compression with elastic bandages in the other, 681
ST. THOMAS'S HOSPITAL.—Popliteal aneurism rapidly cured by flexion and digital compression, 49—Popliteal aneurism cured by the application of an interrupted elastic bandage and subsequent digital compression, 85
SALISBURY INFIRMARY.—Extreme convergent strabismus, 718—Foreign body in the posterior chamber of the eye, ib.
SEAMEN'S HOSPITAL, GREENWICH.—Gangrene of the lung in a case of lead-poisoning, 198—Aneurism of the ulnar artery; ligature of the brachial artery; recovery, 347
SUSSEX COUNTY HOSPITAL.—Case of sudden coma and paralysis; partial recovery of consciousness and power; rapid death; hydatids of the pineal gland, liver, and peritoneum, 48
TAUNTON AND SOMERSET HOSPITAL.—Rapid cure of a case of aneurism of the anterior tibial by Esmarch's bandage, 235
TOXTETH-PARK WORKHOUSE INFIRMARY.—Two cases of urethral stricture treated successfully by internal urethrotomy, 200
UNIVERSITY COLLEGE HOSPITAL.—Distended bladder and simulated rectal stricture from the irritation of a contracted meatus, 164—A series of cases of tumour of the female breast; remarks, 233—Empyema complicated with pneumonia; repeated aspirations; recovery, 310—Cystic sarcoma of the popliteal space, 418—Scirrhus cancer of the breast in a man, 754
WEST LONDON HOSPITAL.—Vesico-vaginal fistula caused by wearing a pessary; operation; cure, 86—Two cases of accidental poisoning by a solution of atropia; recovery, 165—Three cases of fractured pelvis, with laceration of a large vessel, 347—Stricture of the urethra and stone in the bladder; median lithotomy; relapse of the stricture three years afterwards; external urethrotomy; good result, 532—Stone in the bladder of a man suffering from albuminuria; chronic bronchitis; stricture of the urethra and vesical atony; lithotrity combined with median lithotomy at one sitting; good result, 900
